Notes to Financial Statements

May 31, 2004
Canadian Funds

1. Nature of Operations

The Company was incorporated July 10, 2000 as Withit Capital Corp. and changed its name to Stikine Gold Corporation June 18, 2002. The Company was inactive until it commenced operations in the 2003 fiscal year.

The Company is a development stage company that engages principally in the acquisition, exploration and development of resource properties. The recovery of the Company's investment in its resource properties is dependent upon the discovery, development and sale of ore reserves and the ability to raise sufficient capital to finance this operation. The ultimate outcome of these operations cannot presently be determined because they are contingent on future matters.

2. Significant Accounting Policies

These interim financial statements follow the same accounting policies and methods of their application as the most recent annual financial statements. These interim financial statements should be read in conjunction with the audited financial statements as at February 29, 2004.

3. Fair Value of Financial Instruments

The Company's financial instruments consist of cash, receivables and accounts payable. Unless otherwise noted, it is management's opinion that the company is not exposed to significant interest, currency or credit risks arising from the financial instruments. The fair value of these financial instruments approximates their carrying value due to their short-term maturity or capacity of prompt liquidation.

4. Resource Property Costs

Details are as follows:

	Acquisition	Deferred Exploration	Total May 31, 2004	Total May 31, 2003
Sullivan Deeps Project British Columbia, Canada	\$ 78,323	\$ 398,187	\$ 476,510	\$ -

4. Resource Property Costs - Continued

- a) By assignment agreement dated October 2, 2003, the Company acquired, the right to earn, from Teck Cominco Metals Ltd. ("Teck Cominco", a subsidiary of Teck Cominco Limited), a 50% interest in certain properties located near Kimberley, British Columbia, known as Sullivan Deeps Project. As consideration for the assignment of the option, the Company reimbursed Mariner Ventures Corporation, a related company, for \$53,394 in costs and was later credited with a refund \$2,251, for net acquisition costs of \$51,143. To earn its 50% interest in the property, the Company must issue 100,000 shares to Teck Cominco (issued) and incur \$1.5 million in exploration expenditures on or before January 31, 2005 and \$4 million in cumulative exploration expenditures on or before August 1, 2007, as summarized below:

	Share Issuances	Exploration Expenditures
Upon exchange approval (issued)	100,000	\$ -
On or before January 31, 2005	-	1,500,000*
On or before August 31, 2007	-	2,500,000
	<u>100,000</u>	<u>\$ 4,000,000</u>

* Of this initial amount, \$500,000 is a firm commitment and is to include at least one drill test. Should the Company not incur this amount, it must pay Teck Cominco the difference between \$500,000 and the total amount incurred to January 31, 2005.

Upon completion of this earn-in stage, Teck Cominco will have 90 days to elect to become operator and form a joint venture with Stikine, or Stikine will have the right to earn an additional 20% interest by funding a further \$4 million in exploration expenditures. Teck Cominco will then have the right to participate at the 30% level or to convert to a 1.5% NSR, reducible to 1% upon payment of \$2.5 million by Stikine.

- b) The Company has grubstaked a prospector to search for, and to subsequently acquire, certain mineral properties of interest and meeting the Company's criteria in Latin America. Acquisition and deferred exploration costs to date totalling \$312,656 have been capitalized; however there is no assurance the Company will be successful in acquiring its properties.
