### 1. Nature of Operations

The Company was incorporated July 10, 2000 as Withit Capital Corp. and changed its name to Stikine Gold Corporation June 18, 2002. The Company was inactive until it commenced operations in the 2003 fiscal year.

The Company is an exploration stage company that engages principally in the acquisition, exploration and development of resource properties. The recovery of the Company's investment in its resource properties is dependent upon the discovery, development and sale of ore reserves and the ability to raise sufficient capital to finance these operations. The ultimate outcome of these operations cannot presently be determined because they are contingent on future matters.

---

### 2. Significant Accounting Policies

These interim financial statements follow the same accounting policies and methods of their application as the most recent annual financial statements. These interim financial statements should be read in conjunction with the audited financial statements as at February 28, 2007.

---

### 3. Fair Value of Financial Instruments

The Company's financial instruments consist of cash, receivables, B.C. Exploration Tax Credit receivable, reclamation bonds and accounts payable. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from the financial instruments. The fair value of these financial instruments approximates their carrying value due to their short-term maturity or capacity of prompt liquidation.

---

- a) By an assignment agreement dated October 2, 2003, the Company acquired the right to earn, from Teck Cominco Metals Ltd. ("Teck Cominco", a subsidiary of Teck Cominco Limited), a 50% interest in certain properties located near Kimberley, British Columbia, known as the Sullivan Deeps Project.

During the quarter ended May 31, 2007, the Company concluded that the Sullivan Deeps Project had been adequately tested and that no further exploration would be conducted at the project. At August 31, 2007, acquisition and deferred exploration costs totalling \$3,927,925 have been written-off.

- b) By agreement dated February 15, 2006 as amended, the Company has acquired a 100% interest in the Catalan Copper Property for cash payments totalling \$60,000. The Catalan claims lie adjacent to the Gibraltar Copper Molybdenum Mine near Williams Lake, in south-central British Columbia. The Catalan Copper Property is subject to a 1% net smelter return held by the vendor upon commencement of commercial production.
- c) On May 16, 2006, the Company completed the purchase of a 100% interest in the "Huskie Uranium Property", in Northern Saskatchewan. In order to acquire the 100% interest, the Company issued 1,225,000 common shares with a fair value of \$441,000 to the vendor. The property is subject to a 2.5 percent net smelter return held by the vendor upon commencement of commercial production that is reducible to 1 percent by paying \$3-million at any time before or after the commencement of commercial production.

#### **8. Income Taxes - Continued**

- b) Flow-through securities are securities issued by a company that incurs certain resource expenditures and renounces them for tax purposes thereby allowing the expenditures to flow through to the subscriber who purchased the securities. Subscribers may in turn claim the expenditure as a deduction on their personal or corporate tax returns.

The total amount of funds raised through the sale of the Flow-through common shares must be spent on qualified mineral exploration. The proceeds from the Flow-through common shares are restricted in use for certain qualifying Canadian Exploration Expenditures ("CEE") under Canadian Tax Legislation.

Funds raised by the Company through the sale of the flow-through common shares must be spent on qualified mineral exploration. During the year ended February 28, 2007, the Company raised a total of \$1,650,000 through the issuance of flow-through securities, which funds have been expended on qualifying expenditures. The entire amount was renounced, for income tax purposes, to the flow-through investors with an effective date of renunciation of December 31, 2006.

For the amount that was renounced during the year ended February 28, 2007, the future tax liability amounted to \$562,980. The Company's tax pool balances exceed this estimated liability. Therefore, the Company reduced its share capital account and recorded future income tax recovery of \$562,980.

The Company has incurred approximately \$4,294,153 of resource related expenditures that may be carried forward indefinitely and used to reduce prescribed taxable income in future years.

The potential future tax benefits of these income tax losses, net capital losses and resource related expenditures have not been recognized in the accounts of the Company due to uncertainty surrounding realization of such benefits.
